October, 2018

## **Welcome back to the 2018-2019 Curling Season**

I hope each of you have had a good and restful summer. It is hard to believe but the curling season will start in just a few weeks. Myles will be turning on the ice plant this week and starting to put the ice in for another exciting season of curling.

We have a thrilling and fun filled season of curling and social events planned for you. Our first event planned – dependent on ice availability - will be our Welcome Back Funspiel and BBQ which is scheduled for Saturday October 27 2018. Watch your email or check our website for sign up information. We hope to have as many club members as possible come out for this event. We will coordinate so everyone gets at least 4 ends of curling as well as a social time in the lounge throughout the day's events. This will be followed by a BBQ served up by the Board of Directors and other volunteers.

We have a busy schedule of curling planned for this season, with lots of events designed to give you maximum opportunity to get out and enjoy our club. We are exploring ideas for new curling leagues that will fill in unused ice time. We plan to have a short survey, which will be given to you on registration night, with hopes that your input will help us determine interest in the proposed new leagues. The Board looks forward to receiving your input at any time during the year.

We will be ramping up our rock replacement capital drive this season with hopes of meeting our target by the end of the curling season. Gina Rayworth will be heading up this exciting campaign. Watch for more information as our curling season progresses.

Wishing you and yours a happy Thanksgiving.

Have a good curling season.

Tom Trueman  
President
